

Technical Bulletin

Bulletin No. 007 Rev B
Subject: Non-Rain Master Remote Use with RME Sentar and RME Hawk

Page 1 of 2
Product Applicability: RME Sentar, RME Hawk
Engineering Release: R. A. Olson
Engineering Release Date: June 19, 2003
Distribution: APPROVED FOR GENERAL RELEASE

Using a non-Rain Master Remote Unit with the RME Sentar or RME Hawk controllers requires the addition of a 24 VAC transformer. The transformer is available under Rain Master part number TR4.

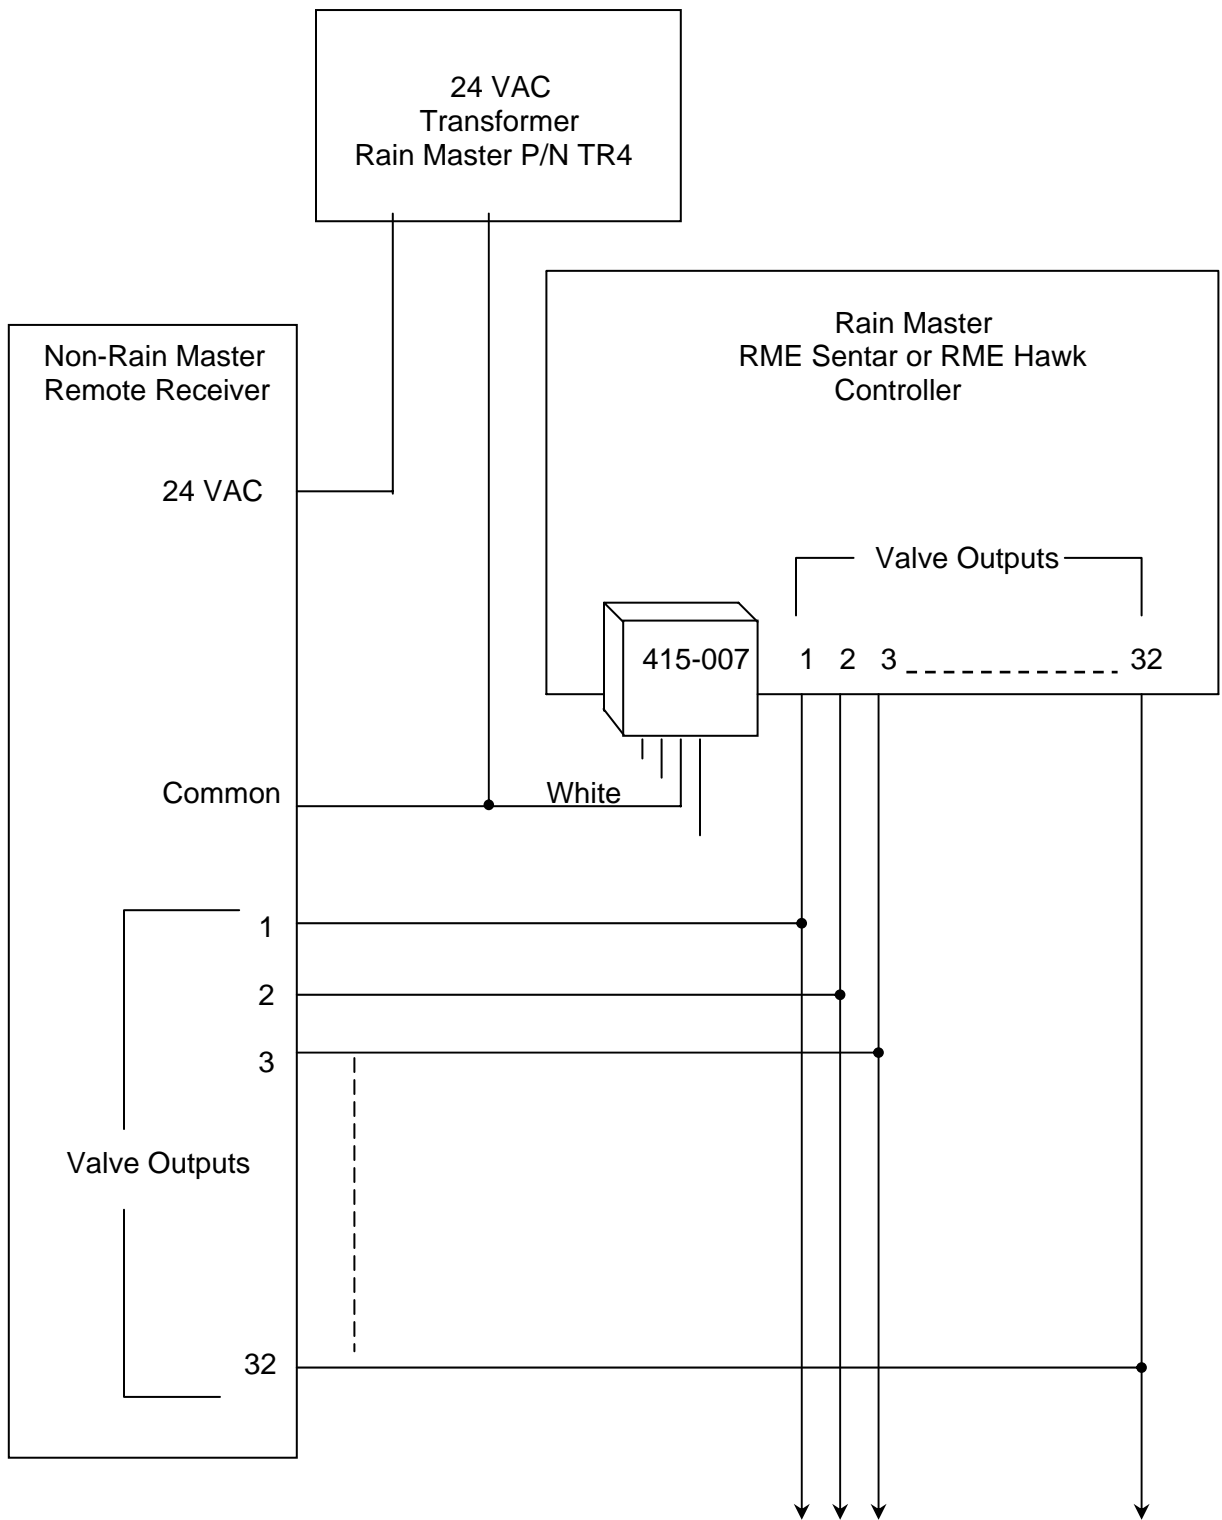

The proper connection is shown on the attached drawing.

CAUTION:

Before making the connections, place the RAIN SWITCH on the controller to the "NO WATERING" POSITION.

FAILURE TO DO SO MAY CAUSE DAMAGE TO THE REMOTE AND/OR CONTROLLER.
