

Rain Master Evolution DX2 Painted Steel Wall Mount Installation

1. Position the controller so that the front panel display appears slightly above eye level.
2. For the top bracket, attach $\frac{3}{8}$ " lag bolts to wall on 16" center. Leave a $\frac{1}{8}$ " gap between lag bolt head and wall.
3. Hang enclosure on lag bolts.
4. Drill and mount the two lower $\frac{3}{8}$ " lag bolts using the bottom brackets as a guide.
